

OUR BRAINS & RELATIONSHIPS

with Todd Call, MS, LMFT LCPC

July 23, 6 - 8pm | SpringHill Suites by Marriott

RELATIONSHIPS ARE EVERYWHERE!

Our brain is a complex and powerful machine that we have only just begun to understand. They say that we only use 10% of our brain, but is that really true? How does our brain affect things like relationships? Are there differences based on gender? Am I “left brained” or “right brained”? If I have made poor choices, are those brain cells gone forever?

There are answers... Thrivology answers!

Join us for a discussion on the brain, its many wonderful facets, and the role it plays in your relationships. Find answers to questions you never knew you had that will help to enhance your relationships and understand others so that you can live **a life that thrives.**

BRING A GUEST!

You bring a friend – we’ll bring the snacks. Come and relax, learn a few things, and maybe have a few laughs. Sign up at the link or contact us for more information.

LOCATION

SpringHill Suites by Marriott
250 Old Reserve Drive
Kalispell, MT 59901
